

Method Statement

Date 19.04.12

We will be cleaning no's 21 chimneys at over 2 -4 day period, using the British Standard brush method.

9 of these will require inspection holes being cut so we can access the chimney – any spoils will not be removed from site and holes will not be refilled..

1 (unit RF12&13) has asbestos board – which requires removing by a specialist company before chimney can be accessed.

All chimneys will have a certificate which will be issued on receipt of full payment.

PPE will be worn at all times.

Units attending – Phase 3

RF20 =6

RF18&19 =8 (4 chop outs)

RF 12&13 = 7 (5 chop outs) 1 asbestos board present.

Yours sincerely,
